

# VERACO™

HYGIENE SOLUTIONS FOR A SAFER WORLD

## REFERENCE: CLARIFICATION OF CERTIFICATE OF CONFORMITY (COC)

To whom it may concern :

This letter is issued for the express purpose of clarifying the safety directive compliance standards shown on the attached Veraco Ltd Certificate of Conformity.

The Veraco Certificate of Conformity specifically provides confirmation that the biocide used in the manufacture of the Safe Pad and Safe Wrap products complies with BS ISO 22196 – BS ISO 21702-2019 (EU) 528/2012) 98/8/EC (EC)-852/2004 standards. These references are testing standards and not certificates.

Applying the term certificate to the above testing standards is a misnomer, Veraco cannot obtain certificates for BS ISO 22196 – BS ISO 21702-2019 (EU) 528/2012) 98/8/EC (EC)-852/2004 because no certificate for these testing standards exists.

As no specific certificates exist for the above standards Veraco Ltd is required to issue its own CoC certifying that the biocide used in the manufacture of its products complies and meets all the relevant ISO, EU and EC biocide testing standards.

Signed For and on Behalf of Veraco Ltd.
